Campaign CRM Manager/Analyst

Analytical CRM & Lifecycle Marketing professional with proven experience designing and optimising customer journeys across multi-channel campaigns. Skilled in segmentation, personalisation, and retention strategies that increase engagement and loyalty. Adept at translating customer insights into automated journeys, lifecycle communications, marketing automation workflows and reporting frameworks that empower decision-makers. Strong collaborator, bridging data, technology, and marketing teams to deliver measurable impact.

Areas of Expertise

Customer Journey Mapping	Lifecycle and Loyalty	Data Analysis
CRM Strategy & Execution	Communications	Strategic Analysis
Personalisation & Dynamic Content	A/B & Multichannel Testing	Cross-functional Collaboration
	Customer Segmentation	

Accomplishments

- Created multiple touch point journeys for different phases of customer lifecycle, from early acquisition, to regular active engagement with a focus on building a relationship between the brand and the customer.
- Created Hyper Personalised CRM campaigns to fans for a specific year/season, aggregating and manipulating data from a plethora of different sources into useful flags.
- Established a Stakeholder friendly Internal Reporting system for all the campaigns sent in the latest year through SQL coding, reducing the time of reporting from one hour per campaign, to less than one minute and without any cross-departmental friction.

Career Experience

SQL Analyst, Checkatrade **Dec 2025 –June 2026**

Acted as a bridge between CRM, Data and Engineering teams, supporting the development of CRM capability across both Trade and Consumer audiences. Developed automated reporting solutions using SQL and APIs to improve visibility of CRM performance and support better decision-making. Built and refined audience segments in Braze by developing a strong

understanding of customer data and behavioural logic, while also contributing to the use of Catalogs, basic Canvases and Liquid logic within lifecycle activity. Worked closely with technical teams to define and test new custom attributes and events, improve CRM data foundations, and support investigations into incidents affecting CRM performance. Additionally used AI tools including Claude Code, Gemini and ChatGPT to accelerate problem-solving, scripting and process improvement.

CRM Operations Manager, Rugby Football Union **Sep 2022 – Feb 2025**

Led Customer Lifecycle Management (CLM) initiatives by creating highly personalised, automated campaigns across email platforms. Owned complex segmentation and dynamic content strategies, leveraging multiple data sources across three audience levels and four GDPR consent brands to improve Loyalty/Retention and maximise Customer Lifetime Value (LTV).

Assisted in the migration of the Customer Data Platforms and CRM systems from Unica, Acoustic and Tableau, to the Salesforce package of Marketing Cloud, Data Cloud and Intelligence focusing on data segments, data validation and comparison of audiences across platforms along with the intended personalised fields.

Additionally validated data feeds using Postgres SQL in Dbeaver and flagged discrepancies.

Campaign Manager , Genpact, London **Jul 2021– Jul 2022**

Created and operated campaigns for a large global financial services client, utilising channels such as On-site advertisement, Email and Push Notifications. Using A/B testing, champion/challenger, audience segmentation, control groups, incentive driven retention strategies and calls to action designed to reduce churn and improve retention

Senior Campaign Consultant, Merkle, London **Jan 2019– June 2021**

Developed marketing data and financial services models using numerous mediums including Email, SMS, Direct mail and Phone. Leveraged in-depth knowledge and implemented rigorous Quality Assurance Checks for campaigns, fulfilling and surpassing industry standards. Efficiently measured the success of the campaign by assessing the customers actions. Implemented best practices and recommended strategies for campaign optimisation by collecting data and interpreting into acumen. Effectively coached the co-workers regarding data reporting and utilising the database to enhance the overall performance.

- Developed campaign maturity reports template by responding to the questions and utilising the gathered information.
- Integrated campaigns process and briefs by deploying an effective automated engagement reporting system.
- Conducted in-depth review regarding the productivity of different marketing campaigns post-completion and impact over targeted audience.
